

Fiber Optic Kevlar Scissors RCZ-527

Product Description

- Blade made of high carbon molybdenum vanadium alloy, long life
- Best kevlar cutting tool
- Gear-shaped blade for easy cutting
- Ergonomically designed handle for comfortable use by both hands.

Features

- High-strength lightweight
- Ultra-high-strength, ultra-low density, super toughness
- Thermal stability, Kevlar (R) fibers in the heat test (TGA) is stable until 600 °C
- Low corrosion resistance
